

# 400V Data Center Cabinets for Chemical Plants

Explore high-performance server racks, data center cabinets, and power distribution solutions from CPI. Optimize space, cooling and uptime today.

The rapid development of AI has imposed higher requirements for computing power on data centers. To accommodate more GPUs for computing, the architecture of 400V independent ...

Download our free guide to learn how the right edge infrastructure can give you a competitive advantage. 400V DC power is designed to ensure the highest levels of efficiency and reliability. ...

Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature rich cabinets.

DC back up for 12V, 48V or 400V power. Building your core site with reliable components designed to achieve high efficiency is a great way to control cost - from the rectifiers within the DC power ...

Meet rising AI and cloud demands with 400V DC rack power. SiC semiconductors offer efficient, scalable solutions to tackle safety, heat, and standardization challenges.

OmniOn designs and manufactures power solutions for 5G, wireless, data center, and industrial applications that require quality, reliability, and efficiency.

NetSure™ 700 Series with 400V DC Input 8V DC near the equipment loads. This lets you use existing 48V DC equipment loads while gaining the copper-saving benefit of 400V DC

NetSure (TM) HVT 400V HVDC power is designed to ensure the highest levels of system efficiency and reliability. This technology combines the proven benefits of 48V DC power - modularity, scalability, ...

Find a flexible cabinet solution that meets the needs of your most demanding environments and can be customized to your unique requirements. Learn more.
