

Budapest Energy Storage Battery Cabinet with Ultra-Large Capacity

Where is Hungary's largest battery energy storage system located?

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Székesfehérvár, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backup as it charts its green energy path. In neighbouring Bulgaria, a massive 124MW/496MWh battery energy storage system went live in Lovech earlier this year.

How much power does met have in Hungary?

The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh. This project significantly expands MET Group's energy storage portfolio in Hungary. It joins a smaller 4 MW / 8 MWh demonstrator BESS, which utilizes Tesla Megapack 2 batteries and was installed at the same site in 2022.

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal ...

Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest.

ALTEO implemented its first 6 MW output/4 MW capacity energy storage unit in Budapest in 2018, on the grounds of the Zuglói Power Plant. ALTEO has installed one of the first ...

Hungary has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS).

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today. MET ...

E.ON Hungaria announced a year ago that by building a new battery-based energy storage unit, it would enable the connection of more solar systems. According to Thursday's press ...

The plant combines three of Wartsila's W34SG engines with 6 MW/4 MWh of battery energy storage. The hybrid installation will operate in "virtual power plant mode" to help regulate the grid, providing ...

Budapest Energy Storage Battery Cabinet with Ultra-Large Capacity

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in ...

News Teplora is proud to announce the successful commissioning of its first Battery Energy Storage System (BESS) project in Budapest, Hungary. This milestone marks a significant ...

The Swiss company MET Group has taken a key step in its decarbonization strategy with the commissioning of the largest battery energy storage system in Hungary. The plant, located at the ...
