

# Data center uses 380V network cabinets from Hainan Free Trade Port

Why is Hainan launching a data center in China?

The deployment sits within Hainan's free-trade zone, where China has relaxed regulations to allow full foreign ownership of data center and telecom operations. The project supports Hainan's push to become a maritime and tech innovation hub, integrating marine science, digital services, and offshore infrastructure.

Is China's Hainan underwater data center a good investment?

China's Hainan underwater data center is a monumental experiment--one embedded with technological ambition, sustainability goals, and geopolitical strategy. While challenges abound--from marine maintenance to cost structures--the potential upside in cooling efficiency, infrastructure scalability, and carbon reduction is profound.
