

Fengling Wind Farm Address

Our concrete towers for wind turbines, ranging from 120m to 260m, are compatible with 2MW to 20MW models, suitable for diverse terrains and have powered 5,000MW wind farms globally.

Shanghai Fengling Renewables offers a complete one-stop service, encompassing the research, design, production, installation, and operation of concrete wind turbine towers.

With a firm commitment to advancing wind energy technology, Shanghai Fengling Renewables has installed over 5,000 MW in wind projects worldwide. Their solutions do not only enhance structural ...

With excellent vibration dampening capabilities, concrete towers effectively absorb and disperse external forces from wind and seismic activities, ensuring stable operation of wind turbines.

Founded in 2020, we at Shanghai Fengling Renewables have quickly become a key player in China's wind power industry.

Revolutionize your power with leading wind electric power and comprehensive wind energy solutions. From eco-friendly solar combos to offshore innovations, tap into clean energy now!

Where is Shanghai Fengling New Energy Co., Ltd.'s headquarters? Shanghai Fengling New Energy Co., Ltd. is located in Shanghai Shi, China.

Explore the world with Google Maps, offering navigation, live traffic data, and directions for various modes of transportation.
