

Heli Photovoltaic Panels

In response to the incompatibility between conventional photovoltaic solutions and large steel-framed buildings, HELIUP is developing and producing an innovative lightweight panel technology ...

Heliatek creates ultra-light, flexible solar films, enabling sustainable, efficient, and easy energy generation for buildings.

HeliaSol has an integral back adhesive and can be conveniently attached to the desired construction surface. You do not need a particular installation tool or substructure. On-demand, HeliaSol may be ...

Heliatek produziert flexible, effiziente und wirklich grüne organische Solarfolien für Gebäude. Stolz als eines der innovativsten Unternehmen der Welt ausgezeichnet.

We manufacture high quality solar photovoltaic modules in our American facilities. The supply chains are short, and our modules are never held up in port or customs. And we meet requirements for the Buy ...

ECO-WORTHY 400W Solar Panels 4pcs 100 Watt 18V Monocrystalline Solar Panel Module for Off Grid PV Power for Home, Camping, Boat, Shed Farm, RV, 12V Battery, 2-Pack 2 * 100W 300+ bought in ...

World-leader in industrial-grade organic solar films for decentralized electricity generation. Our group is a global reference in low-carbon energy and services.

High Efficiency: Heliatek's OPV technology delivers exceptional energy conversion and performance, even in low light conditions and at high temperatures, ensuring optimal energy production throughout ...

Heliup is a startup specialized in the development and production of lightweight photovoltaic panels for large roofs on existing buildings.

HeliaSol can be used to produce clean solar electricity on roofs or facades which normally do not allow PV solutions. It can generate up to 85 watts per square meter and boasts a ...
