

# How is the shipment volume of Longi photovoltaic panels

LONGi Green Energy Technology has reported cumulative external solar cell and module sales of 63.43 GW between January and September 2025. The total includes 14.48 GW of back ...

After all, JA Solar's shipments are now some 5GW higher than those of third-placed LONGi, which is still a significant lead. Competition for third and fourth place in the global module ...

Explore the top 10 global PV module suppliers of 2024. JinkoSolar leads with 92.9 GW, followed by LONGi, JA Solar, and Trina -- the new &quot;F4&quot; giants.

The following are some critical metrics that define the performance of LONGi bifacial panels: Module Efficiency; Module efficiency is a measure of how effectively a solar panel converts ...

Silicon wafer shipments totaled 44.44 GW (with 21.96 GW sold externally), while solar cell sales reached 2.66 GW externally. Additionally, module shipments amounted to 31.34 GW, with a ...

Longi recorded 67.5 GW of solar module shipments in 2023, according to its latest financial results.

So far this year, the company has shipped 82.80GW of silicon wafers and 51.23GW of modules. Despite the challenging market situation, LONGi's module shipments have increased ...

Compared to the manufacturers ranked behind, there is a significant gap in shipment volumes of over 30%, with the top four accounting for 63% of the total volume of the top 10.

Leading global solar PV manufacturer from China, LONGi Green Energy Technology, counts to have shipped 51.23 GW of solar PV modules between January and September 2024, ...

As of Q1 2024, LONGi Solar maintains its position as the world's second-largest solar panel manufacturer by shipment volume, commanding 15.7% of the global market share .
