# Ryobi 100ah replacement battery

How many 40v batteries does Ryobi have?

The 40V Lineup - Ryobi has 5different 40V batteries out right now (at the time I wrote this) and they range in capacity from 1.5 Ah to 5.0 Ah batteries. They have a 1.5,2.6,3.0,4.0 and a 5.0 Ah battery available but you may have to look around at different retailers to find specific models.

What is a Ryobi P100 battery?

The P100 is the standard NiCad batterynowadays and is usually what Ryobi compares it's Lithium Ion batteries to. The P100 is priced around the $50 mark and has a rating of around 1.5 Ah. This is comparable to some of the Lithium batteries (P102,P107 and P189). The P100 does not have a fuel gauge built in like the Lithium+batteries.

How do I charge a Ryobi 40V 5AH battery?

To charge a Ryobi 40V 5AH battery,use a 40-volt lithium-ion charger. Connect the charger to the battery and plug it into a standard 120-volt outlet. The charging indicator on the charger will turn from red to green when the battery is fully charged.

What battery does Ryobi use?

Ryobi's P194 is their largest battery that they are coming out with and is made for the most demanding cordless tools. The P194 is a Lithium+battery(with led fuel gauge) and is also a HP model so it is more efficient and compliments Ryobi's brushless tools,which is what is was made to do in the first place.
