

Solar irrigation water pump 3 inches

This 3 inch 900 watt solar-powered water pump is an environmentally friendly and energy-saving solution designed to use the electricity generated by solar panels to move water.

This deep well pump is an ideal solution for remote watering needs without electric power, like a garden, farm irrigation, and tank filling, etc. It works with the solar panel from 100W to ...

Alloy mechanical seal, longer working life and high reliability. High lift, large flow, small size, easy to carry. Suitable for using in ships, fishing boats, fish ponds, agricultural irrigation and etc.

The solar PV system voltage needs to meet the voltage range in the figure ...

High Flow Capacity: Engineered to deliver large flow rates, this pump is ideal for irrigation systems, ranch operations, and farming applications. Durable Stainless Steel Components: Constructed with ...

With a maximum water flow of 3.8 m³/h and a water lift head of 123m, this pump is designed for small power and large head applications, perfect for household water supply, animal husbandry, and small ...

The solar PV system voltage needs to meet the voltage range in the figure below. For example: The 3DSC4-50-36-400 model matches the solar panel voltage between 18V~48V.

3-inch solar submersible pumps with plastic impellers for home water use, livestock drinking, and agricultural irrigation.

We will recommend the suitable solar panels for each solar pump. Any installation question, we will provide the connection diagram or installation video for your reference.

Designed for deep well applications, this 3-inch solar pump delivers high efficiency and consistent performance. It supports both solar and electric power sources, making it ideal for areas with ...

Price:102~108\$ Product name:DC Solar pump 3 inch deep well stainless steel impeller water pump borehole pump with solar panels Horsepower:300W/400W/600W/750W/1100W/1500W/2200W ...
