

Special lifting wheel for photovoltaic panels

The TranzVolt is a battery powered, solar panel hoist, which allows for the vertical lift of modules to the rooftop. This is an excellent option for projects located in remote, off grid, or new construction areas ...

Optimise solar panel logistics with ergonomic, single-person lifts for inspection, order picking & container unloading.

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a time-saving space-saving way to reach inaccessible loading areas.

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust ...

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

GEDA Solarlift is a reliable device on every construction site to transport and assemble solar panels and photovoltaic systems securely. The solarlift also comes with an extra post that supports the ladder ...

Handling solar panels is easy and efficient with UniMove solar panel lifters. Everyone can lift and tilt large solar panels, powered by vacuum technology. UniMove offers a solar panel lifter for every step ...

Our solar panel lift makes your solar installation jobs more efficient than ever before. Lift up to 500 lbs worth of panels and material with just the push of a button. The solar series is the perfect solution for ...
