

Swedish supercapacitor module manufacturer

Skeleton's SkelMod and SkelStart supercapacitor modules offer a lot of power in compact, industry-standard form factors. Highest performance and quality for automotive, transportation, grid, and ...

The SkelCap supercapacitor series brings the benefits of our patented production technologies to the D60 form factor, the most popular cell size in the supercapacitor industry. Class-leading performance ...

SkelGrid is an energy storage system that can be used for short-term backup power or to increase power quality for industrial applications or infrastructure. As a modular system, SkelGrid components ...

The leading Supercapacitor Manufacturers in Sweden are listed in this directory. You can narrow down the list of manufacturers based on their location and capabilities, browse their product catalogs, view ...

"Ben" is a demonstrator brought to life by three Swedish companies, Epishine, Ligna & Ynvisible. Ben is a sensor device that harvests energy from indoor light and stores it in a supercapacitor called S-Power.

A powerful module for reliable engine starting for diesel engines in any weather conditions. Based on Skeleton's industry-leading supercapacitors, offering unparalleled power.

Skeleton Technologies is the world's leading manufacturer of graphene-based supercapacitors. Rebuilding industry for a net-zero future.

This section provides an overview for supercapacitors as well as their applications and principles. Also, please take a look at the list of 19 supercapacitor manufacturers and their company rankings.

We make our own Curved Graphene carbon raw material, and produce our supercapacitor cells, modules, and systems to strict quality standards, servicing our customers in automotive, ...

Explore the top 7 supercapacitor manufacturers that are leading the way in energy storage innovation. Discover industry leaders, cutting-edge technologies, and their global impact.
