

Yumi Solar Generator

What is a solar generator?

A solar generator captures and stores solar energy in a portable power station using solar panels. EcoFlow solar generators feature high-efficiency panels, flexible power outputs (300-7200W), and durable, portable designs built to last.

Can a solar generator power a mini fridge?

Lower capacity is sufficient for lights, cell phones, and laptops. For instance, a 500-watt solar generator can power an LED light for 100 hours, while it will only power a mini fridge for about 10 hours. Direct current and alternating current are the two forms of electricity. DC is electricity that flows only in a forward direction.

How do I choose the best solar generators?

To pick the best solar generators, we tested some of these power stations for charging capacity, ease of use, weight, and different use cases. Some picks were reviewed by Popular Mechanics test editor Brad Ford, who provided input for the larger-capacity units.
